The Healing power from spiritual of serpent. The Power of Goodness, Kindness, Faith, is a white magic to helping suffer human. The Power is only helping people to make the suffer better its not harming people and can not be hurting people. The Healing it's not a matter of superstition BUT it's FAITH. To help people is the wonderful thing in life " HELP " is only one word But its will mean a lots for someone who need help . I've intend to go home to attend ceremony. Is so many thing going on so many people they came for ceremony they are The people who believe in Healing power some just come to pray for healthy, protection and blessings.
